THE NEW YORK SUN FOR 1879.

THE SUN will be printed every day during the year to come. Its purpose and method will be the same as in the past: To present all the news in a readable shape, and to tell the truth though the heavens fall.

THE SUN has been, is and will contin e to be independent of everybody and everything save the Truth and its own convictions of duty. That is the only policy which an honest newspater need have. That is the policy which has won for this newspaper the confidence and friendship of a wider constituency than was ever enjoyed by any other American journal. Un is the newspaper of the people. It is not for the rich man gainst the poor man, or for the poor man against the rich man, but it seeks to do cour; justice to ail interests in the community. It is not the organ of any person, c'ass, sect or party. There need be no mysters a out its loves and hates. It is for the honest man against the regues every time. It is for the honest Democrat as against the dishonest Republican, and for the honest Republican against the dishonest Democra. It does not take its one from the utterances of any politician or political organization. It gives its support un reservedly when men or measure; are in agree-men, with the Constitution and with the principles upon which this republic was founded for the pople. Whenever the Constitution and constitutional principles are violated—as in the our raggous con principles are violated—as in the our raggous con principles are violated—as in the constitutional principles are violated—as in the our raggous con principles in the President's other, where he this remains—it speaks out for the right. That is The USS idea of independence. In this respect there will be no chappe in the programme for 1872.

The eun has fairly earned the hearts hatred to raceals, frauds, and humougs of al. sorts and size. It hope to deserve that haved not less in the year 1-73 than in .8 8, .877, or any year cone by. The Sun is printed for the mea and women of to day, whose concern is chiefly with the affeirs of to day. It has both the deposition and the abidity to afford its readers the p ompt est, fullest and most accurat intelligence of whatever in the wide world is worth attention. To this end the resources belonging to well-established prosperity will be liberally em-

the present disjointed condition of parties in this country, and the u certainty of the future lent an extraordinary significance to the events of the coming year. To present with accuracy and clearness the exact signation in each of its varying phases, and expound, according to its well known me hods, the principles that hould guide us through the labyrinth, will be an important part of The SU's wors for 1879.

We have the means of making The SU's as a political, a literary, and a general newspaper. more entertaining and more une'ul than ever before; and we mean to apply them freely. Our rates of subscription r main unchanged. the cunday edition of The un is also fur nished separately at \$1.20 a year, p. stage (ai). the SUNDAY SUN, in a dition to the cu reut news, presents a most entertaining and in truetive body of literary and miscellaneous natter, in bulk twice as great and n value n.t inferior to that of the be t monthly magaz his of the day, at one tenth of their cost. The WERKLY SUN is especially ada tal for hose who co not take a New York daily paper.
